

~~SECRET/STD/NF~~

UNITED STATES GOVERNMENT

memorandum

DATE: 5 Jul 1990

REPLY TO
ATTN OF: DT-S

SUBJECT: SUN STREAK REPORT - 9044 (U)

TO: ODCSINT, DAMI-PO

1. (S/STD/NF) On 3 July 1990, two remote viewing sessions were conducted to describe the target vessel bearing call sign, [REDACTED]. The nature of the target vessel's interaction with other vessels in the transport of contraband in the form of illegal drugs, was also of interest. A determination of the possible involvement of a second vessel previously identified as [REDACTED] (Project 9038) was also of interest to the requestor.

2. (S/STD/NF) Remote Viewer 052 described the target vessel bearing the call sign, [REDACTED] as being predominantly white (superstructure), with a green bottom." "There is something round, bright, and glowing on this vessel." Items moving downward on a device resembling a conveyor belt appeared to be the dominant activity aboard ship.

3. (S/STD/NF) Remote Viewer 018 perceived a series of activities related substantially to the target vessel: On 1 July 1990, there was a daytime transfer of illegal drugs to a medium-sized vessel phonetically known as "Oro Negro/Negrita." The transfer took place at the geographical location provided by the customer. On 2 July 1990, a slow-moving, "hand-to-hand" transfer of illegal drugs to a slow, large flat vessel, took place. The phonetic expressions of "Bindar/Benny Dar" surfaced during the course of an effort to identify the second vessel of interest. During the afternoon of 4 July 1990, a small, yellow/green fishing vessel phonetically identified as the "Burgon/Burgundy/Jorgon/Jordo/Gordo" acted as a go-between with the target vessel bearing the call sign [REDACTED] and a third vessel found in the off-loading area. The vessel being on-loaded stayed in the area for about four hours after completion of the on-

loading. During the period of 6 and 7 July 1990, a vessel bearing the call sign "Rabo Largo" was perceived at the target site and on-loading illegal drugs via small fast vessels from the vessel bearing the call sign [REDACTED]. The vessel "Rabo Largo" also uses a call sign that starts with the letter "M." Remote Viewer 018 perceived the intercept and seizure of vessel(s) at the transfer point on 7 July 1990.

4. (S/STD/NF) COMMENTS: Viewer 018 recently reported the apparent experimental use of the equivalent of a "psychic shield" to avoid detection. Viewer 018 was instructed not to discuss this finding with anyone. Note that 018 is 052's trainer; inadvertent disclosure could have influenced 052's detection of the bright light around the target vessel. All future activity will be closely monitored to confirm or disprove the use of a so-called energetic shield.

[REDACTED]
